---

Lynn

I think our team will need to work with you to identify the mail sorter credenza locations for the 888 Furniture program.

We need WK.01 added to the program as well, would you provide the cost per unit?

I don't see **conference side chair CC-05** on the plans or the bid sheet, do we need to work on identifying / adding those?

Would you provide me with the delta to add (1ea) & (2ea) lockable shelf to typical small office D.03?

Is there a document like the bid sheet with your estimated costs filled in?

Can we get page #14 of Furniture Specs in excel?

Thanks

Phil

Subject: Workstation with dividing panel for mockup

Phil and Josh,
As requested please find attached the specification sheet for WK.01C, the workstation with the dividing panel for the 4th floor mockup. Also included is the 4th floor mock up furniture plan. We will be inserting these two sheet in our specification package. Let us know if you have any further questions. Thank you.
